

# ROOM TO BREATHE MASK

design from Tona Williams [www.tonawilliams.com/facemask](http://www.tonawilliams.com/facemask)

## ROOM TO BREATHE FACE MASK

fastening: over ear  
size: adult medium  
Print at 82% for child large,  
75% child small, 107% adult large

### DIRECTIONS

1. Cut an inside and outside cloth layer (tightly-woven cotton preferred), and one or more inner layers (non-woven polyester interfacing preferred). The number of layers depends on relative thicknesses and intended mask usage.
2. Stack layers and finish outer edge with a zig-zag or overlock stitch.
3. Stitch nose wire holder to the outside.
4. Attach side loops or elastic, and optional top loops or elastic with a sturdy zig zag stitch.
5. Fold with right sides together, sew halves together for front seam, then turn right-side out.

### FASTENING OPTIONS

- grosgrain ribbon is great for the nose wire holder
- elastic strips can be sewn on directly or attached to loops
- pony tail elastic can be knotted around sewn-in loops
- string, ribbon, cord or stretchy fabric strips can connect loops
- barrettes or carabiners can provide quick-release connections
- t-shirt hems, lingerie straps, and recycled waist bands can substitute for elastic

### WIRE OPTIONS

If supply is low, try wire from coffee bean bags, twist ties, pipe cleaners, fake flowers
